Secondary School 77.90% | April 2016 - June 2017

Saraswati Vidya Mandir Senior Secondary School.

PROJECTS

Movies Recommendation System

- The movies are recommended based on the content of the movie you entered or selected. The main parameters that are considered for the recommendations are the genre, director, and top 3 casts.
- The details of the movies, such as title, genre, runtime, rating, poster, casts, etc., are fetched from TMDB.
- The reviews of each individual movie given by the users are "web-scraped" from the IMDB website with the help of BeautifulSoup4, and the reviews are subjected to sentiment analysis, where the model predicts whether the review is positive or negative.

Weather API

- Develop a robust API that provides real-time and forecasted weather data to users and applications. Troubleshoot and resolved issues related to API data fetching and display.
- Provide current weather conditions such as temperature, humidity, wind speed, and weather description.

SKILLS

Java | C | SQL | OOPS | HTML5 | CSS3 | JavaScript | DBMS | Computer Network | VS Code | MySQL Workbench | IntelliJ
